

## COMPANY PROFILE

Repossi Macchine Agricole was founded in 1898 and is now in its 3rd century of activity.

Thanks to its history and achievements, in 2007 Repossi was awarded the prestigious prize "Premio Fedeltà al Lavoro e Progresso Economico - Centenary Enterprises" awarded by the Pavia Chamber of Commerce.

At the end of WW2, the company concentrated on the design and production of haymaking machines, under the guidance of Felice Repossi. The first trailed comb rakes (named **FORTUNA**) were conceived and were joined year after year by other kinds of rakes (self-propelled, rotary, double, triple and electrohydraulic), tedders, cattle shed machinery, etc. until reaching today's wide range of products and services, the result of high specialization and expertise.

The company is still owned by the Repossi family and is now in its fourth generation.

Over the years, Repossi has filed more than 30 patents (two international patents in 2010 alone, the last in 2018) and has received several awards, the last of which was the 2009 International Business Award conferred on June 14, 2010 by the Pavia Chamber of Commerce.

In 2017 Repossi received substantial funding (Horizon 2020) from the European Commission for its innovative patented double-star wheel rake called RaRake, invented by Mr. Gabriele Repossi, the founder's great-grandson.

The future for the 21st century's Repossi Macchine Agricole looks bright.

---

**Repossi Macchine Agricole - The company designs and manufactures agricultural machinery, in particular for haymaking (raking) and breeding. Founded in 1898 and now in its fourth generation, it looks to the future thanks to innovative and patented solutions, including the RA-Rake double star rake, which in 2017 received Horizon 2020 funding from the European Commission.**
